

Read these instructions carefully before proceeding with the installation! Liability for damage due to improper installation or non-observance of these instructions is expressly excluded.

EIMod FX Gun Smoke connects to an EIMod Fusion central unit and controls the heater and pump of a gun smoke generator. This product is designed for HengLong® and Taigen® smoke generators.

### Connectors

### Installation

- The 5-wire line is connected to the muzzle flash connection of the central unit.
- Any muzzle flash is plugged into the looped 5-pin connector.
- The heater and the pump of the smoke generator are connected to the labeled two-pin connectors
- The smoke generator is now ready for use. No further configuration is necessary.
