

Read these instructions carefully before proceeding with the installation! Liability for damage due to improper installation or non-observance of these instructions is expressly excluded.

EIMod FX Taigen® is an adapter to connect the EIMod central unit EIMod FusionX to a Taigen® tank, which is equipped with a standard 360° turret AND has been equipped with a Taigen® gun smoke generator. This product replaces the original distribution board in the turret of the tank.

Connectors

1	Hull connector
2	Connector for battle functions
3	Connector for muzzle flash and gun position sensor
4	Connector for gun position sensor (optional, old version)
5	Connector for turret motors (Elevation and shot)
6	Connector for Taigen servo and smoke board
7	Configuration jumper: - Jumper right: Taigen standard turret mechanics - Jumper left: Taigen servo turret mechanics

Installation

All cables from the original Taigen® turret board in the tower are reconnected to the corresponding places on the EIMod FX Taigen®.

You can find detailed and illustrated instructions in our knowledge database in the service area at www.elmod.eu or by scanning the QR code.
